

# ***Creating a Research Agenda for Community Health Nursing in Canada***

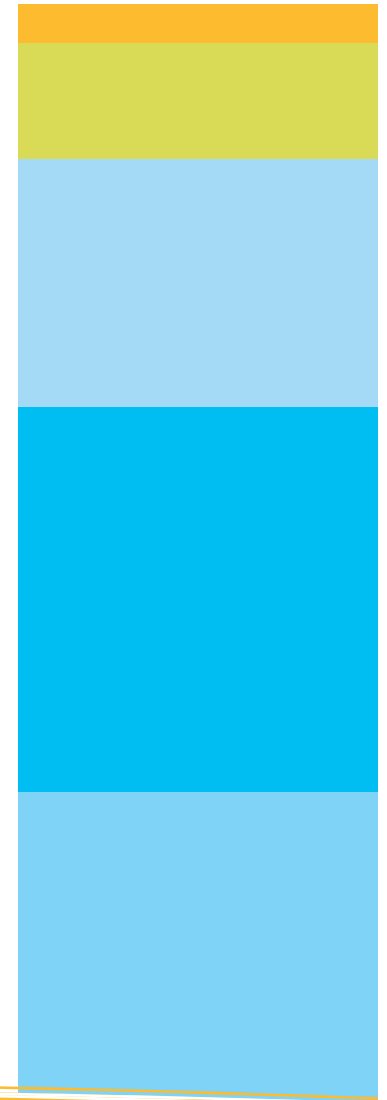

**12<sup>th</sup> CHNC Conference  
June 21, 2017**

Research and Health Policy Standing Committee  
Presenters: Katie Dilworth, Angela Frisina, Ruth  
Schofield

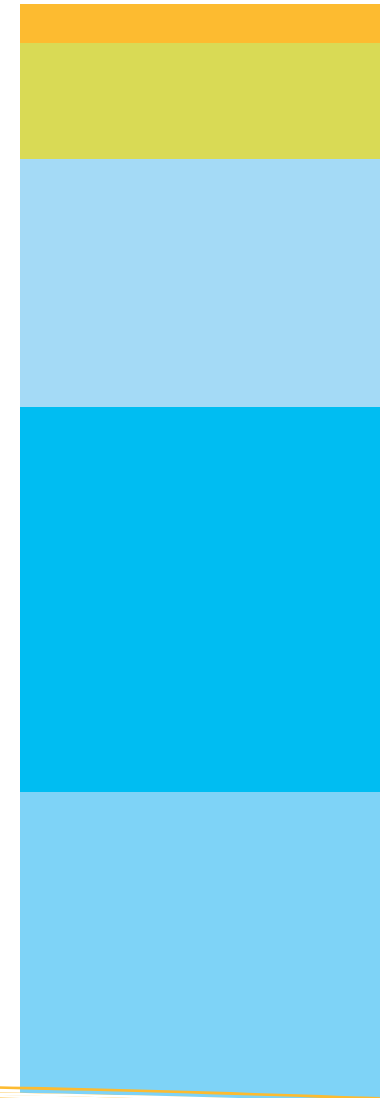

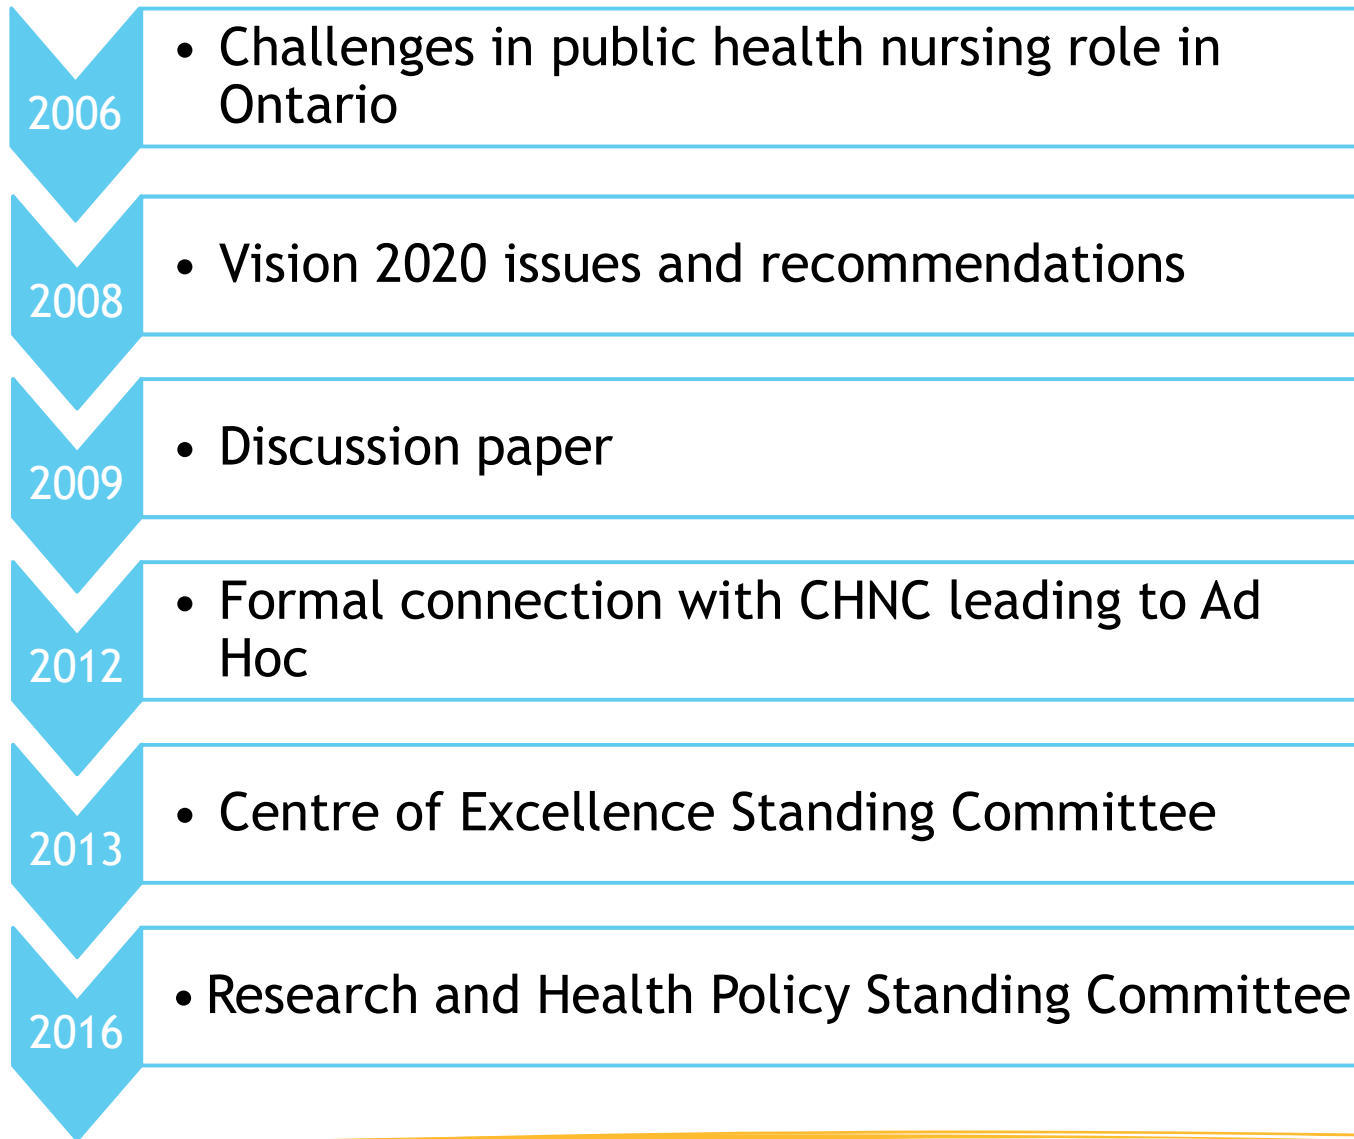

# Participant Outcomes

- Identify CHNs research priorities in collaboration with CHNC
- Initiate a community health nursing research agenda

# Historical Context

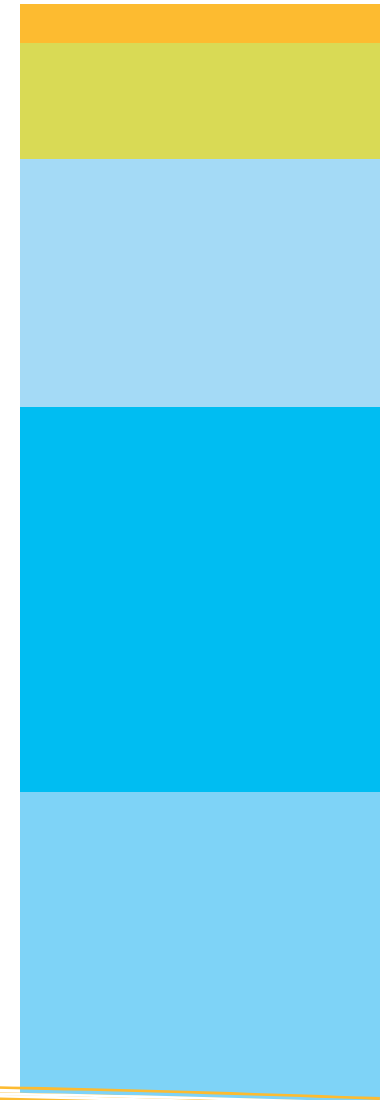

# Research and Health Policy Standing Committee

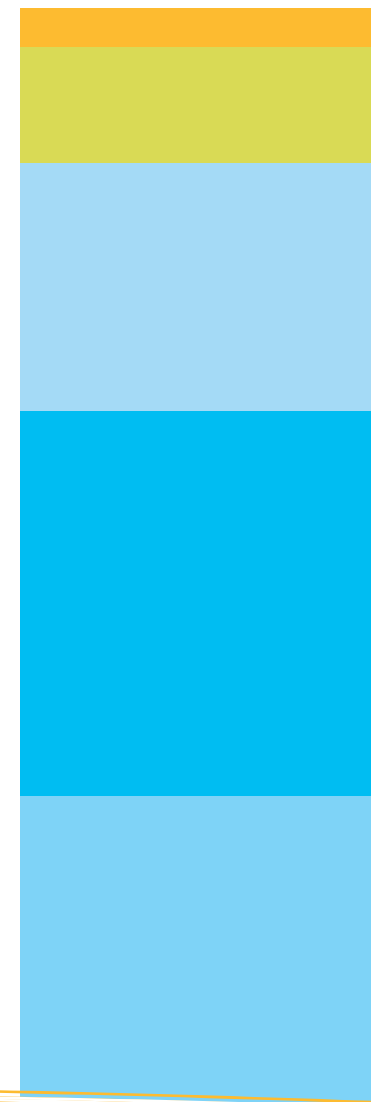

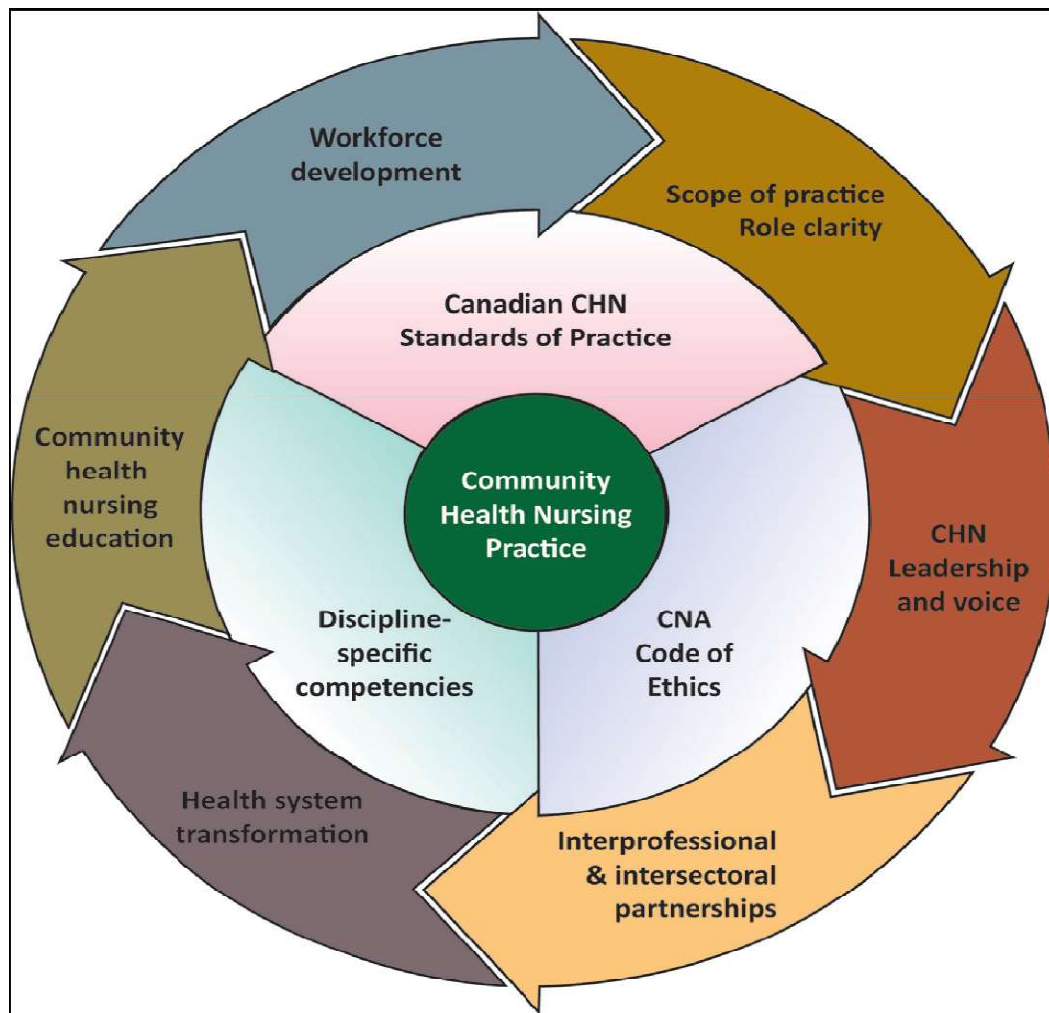

## Key Objectives

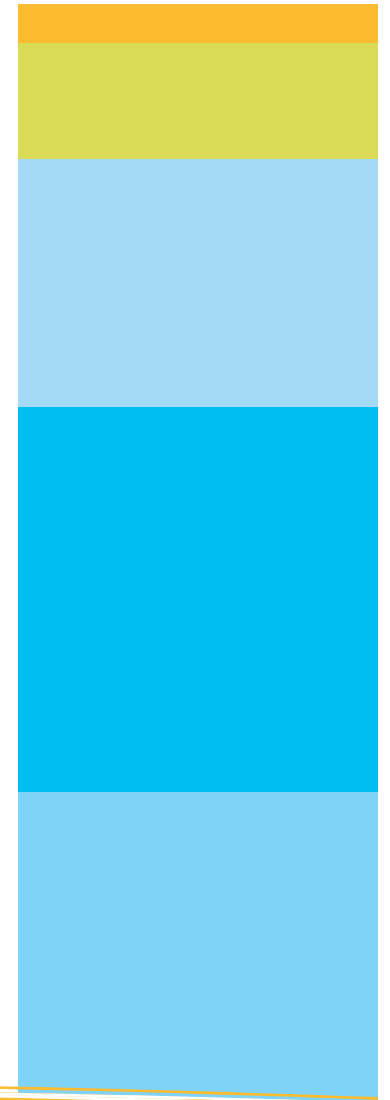

- ▶ Promote excellence in CHN practice through knowledge translation in relation to research and health policy.
- ▶ Create mechanisms to develop evidence-informed policy resources and responses
- ▶ **Establish a collaborative research agenda to advance community health nursing in Canada with other Standing Committees and CHNC partners**

# CHNC Blueprint for Action

# Brainstorm research priorities

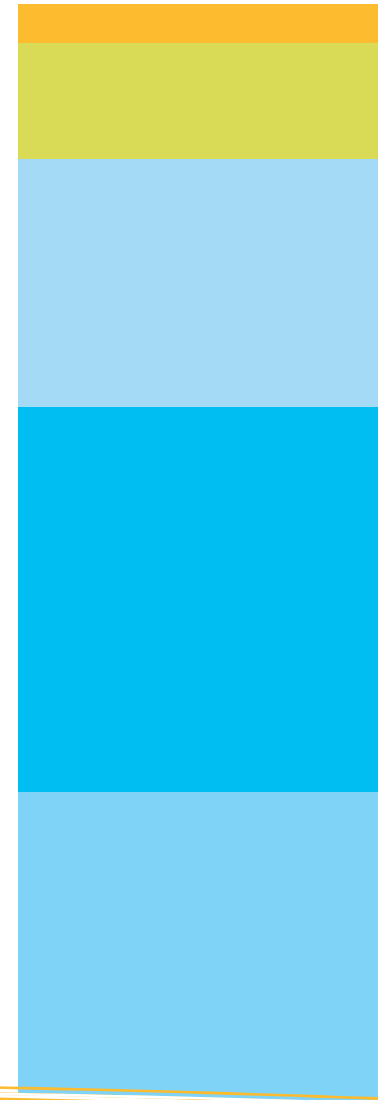

# Small Group Activity

1. Identify decision maker, front line, educator, researcher

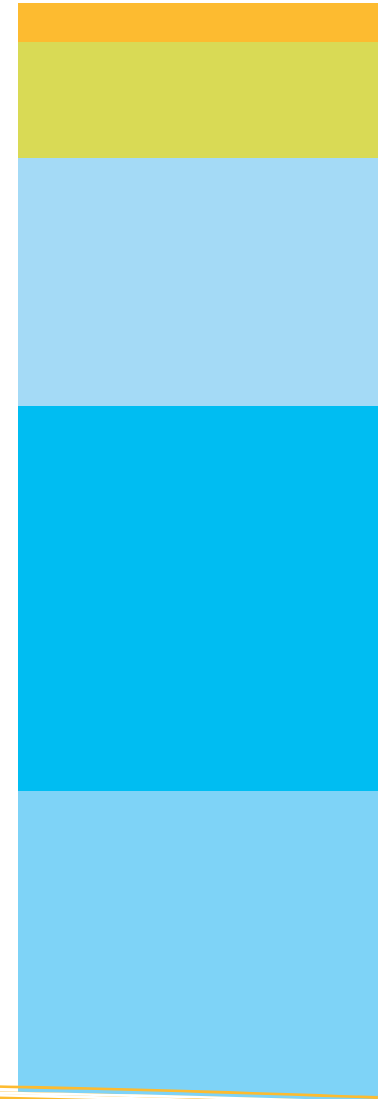

2. What are the issues/questions you are interested in having researchers address in regard to the Blueprint for Action related to:

- ▶ Workforce Development?
- ▶ Scope of Practice Role Clarity?
- ▶ CHN Leadership and Voice?
- ▶ Inter-sectoral and Inter-professional Partnerships?
- ▶ Health Systems Transformation?
- ▶ Community Health Nursing Education?

# Small Group: Guiding Questions

1. What are issues to research in this area of action?
2. Is there other research related to this issue?
3. How urgent is this research?
4. What assistance can you suggest for funding and known researcher(s) on this issue?

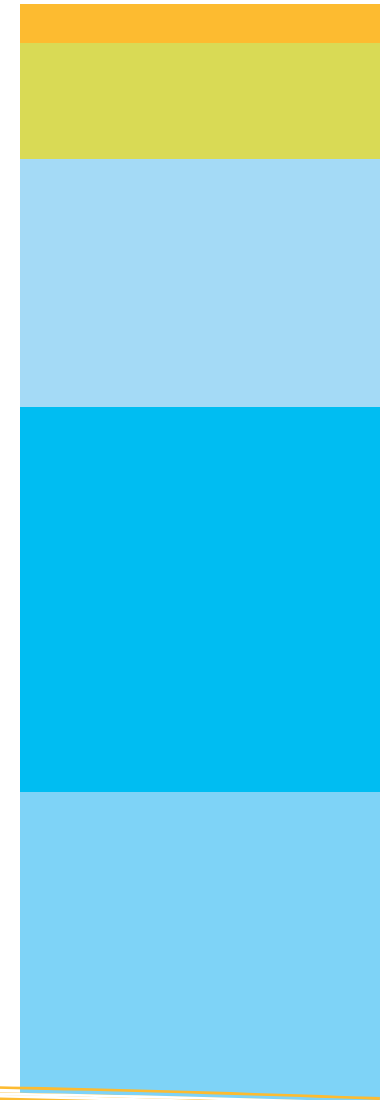

# Small Group Activity Instructions

## In Small groups

- ▶ Identify facilitator for your group
- ▶ Discuss identified questions and record on worksheets on the table
- ▶ Write **only** your research issues on post-its for the BPA areas of action
- ▶ Put post-its on respective BPA wall sheets

## In Large group

- ▶ Dotmocracy (prioritizing actionable ideas) – use dots to prioritize

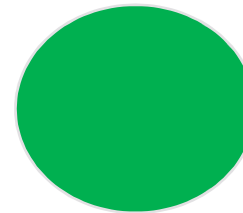

# Dotmocracy

## Prioritizing actionable ideas

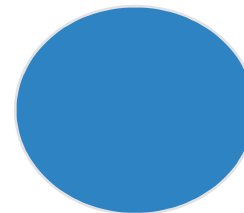

Important to do  
and easy to act  
on

5

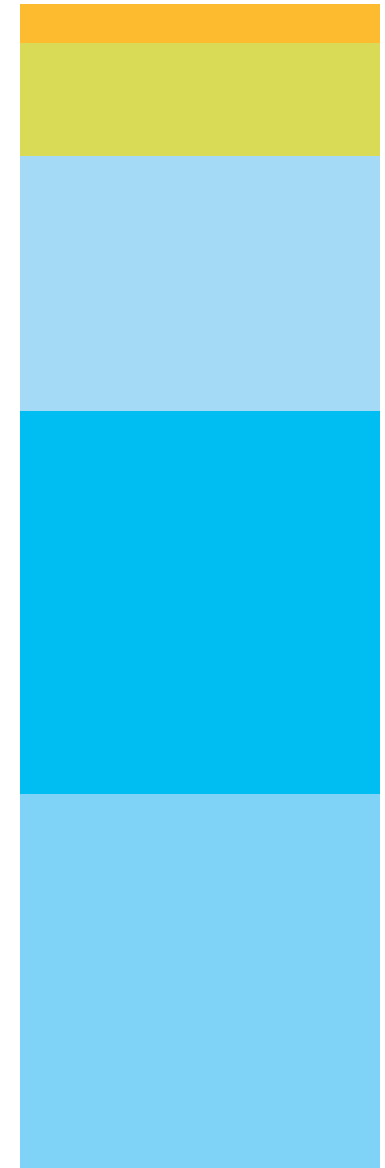

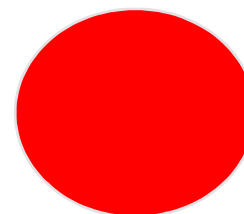

Important to do  
but will take  
time

5

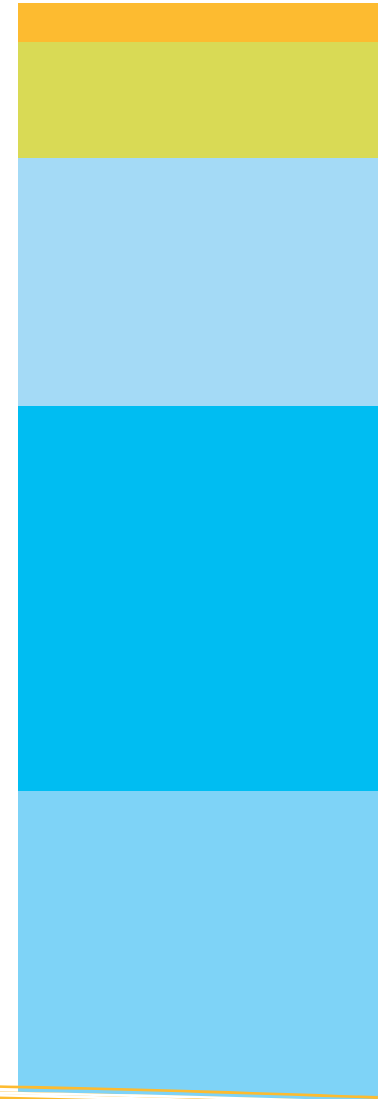

Passionate  
idea

2

# Research Themes Emerging

High level  
summary and  
discussion of  
themes

# Next Steps

What could be  
CHNC  
research  
agenda?
